

# Calling all Citizen Scientists!

## HELP US TRACK A WETLAND RESTORATION

In 2016, the Nature Conservancy and our partners repaired the hydrology of this site by plugging the drainage ditch you see in front of you. Now we need your help to track the effects of this restoration work. Please follow the instructions below. We will compile the photos submitted by citizen scientists like you to document the long-term success of this restoration.

- 1.**  Place device into the bracket.
- 2.**  Take a photo of the view, without a filter.
- 3.**  Post your picture to social media using the hashtag: **#nasshydro** to Facebook, Twitter or Instagram.

**THANK YOU FOR BEING A CITIZEN SCIENTIST!**
